OFFICIAL TOWN BUSINESS

THE TOWN OF KINGSTON'S COMMUNITY CHOICE POWER SUPPLY PROGRAM

The Town of Kingston is announcing the new rates and term for its Community Choice Power Supply Program through its new supplier, **NextEra Energy Services**. The new, split-term aggregation rates are fixed **for all rate classes over 15 months** as follows:

Term	New Rates	Renewable Energy Content
September 2022 to November 2022	\$0.17871 per kWh	Meets MA renewable energy requirements
December 2022 to December 2023	\$0.20337 per kWh	

[Rates apply to service beginning and ending on the days of the month that your meter is read in your service area. This date varies by account.]

For comparison purposes, Eversource's Residential Basic Service rate is fixed at \$0.17871 per kWh from July 1, 2022 through December 31, 2022. **Historically, since Program inception, the Town has been able to secure lower rates than Eversource Basic Service but due to the timing of the expiration of its current contract, the Town had to solicit bids in a volatile market.** The Town continues to work to find a longer-term stable aggregation rate for future contracts.

It is important to note that **no action will be required** by individual consumers. All accounts currently enrolled in the Town's Program will be switched to NextEra as of the September 2022 meter reads. This change will be noted on the September 2022 bills and will be seen on the October 2022 bills. Consumers with questions about the Program should call Colonial Power Group, the Town's aggregation consultant, at (866) 485-5858 ext. 1.

For more detailed information about the Town's Program, including how to OPT-OUT or OPT-IN, or to access Eversource's Basic Service rates, please visit colonialpowergroup.com/kingston or call NextEra at (855) 774-0253. You may OPT-OUT or OPT-IN at any time in the future with NO CHARGE.

Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the Program against Eversource Basic Service. However, such savings and future savings cannot be guaranteed.
