WINDSOR ENERGY PROGRAM ANNOUNCES START DATE

WINDSOR, MA – The Town of Windsor is pleased to announce that it’s launching its Community Choice Power Supply Program this fall in an effort to provide an energy program that is stable, affordable and incorporates additional renewable energy. Windsor signed a fourteen month contract with Dynegy Energy Services.

Beginning with the September 2024 meter reads, Windsor’s Program will offer three products with varying amounts of renewable energy content. “This contract represents Windsor’s commitment to help stabilize electricity costs for residents and small businesses,” said Holly Higinbotham, Windsor Select Board Chair.

Product	Renewable Energy Content	Program Rate (per kWh)	Eversource Rate* (per kWh)	% Savings	Est Monthly Savings
Standard (default)	Meets MA renewable energy requirements	\$0.12520	\$0.14023	10.72%	\$9.02
Optional Renewable 5	5% MA Class I RECs above minimum state requirements	\$0.12720	\$0.14023	9.29%	\$7.82
Optional Renewable 100	100% MA RECs	\$0.15520	\$0.14023	---	---

*Eversource’s Residential Basic Service meets MA renewable energy requirements and is in effect from August 1, 2024 thru January 31, 2025. Assuming usage of 600-kilowatt hours of electricity per month, residents can expect to see an average savings for that period.

The Windsor Community Choice Power Supply Program is a municipal aggregation program which, according to Massachusetts law (M.G.L. c. 164, § 134), enables local government to combine the purchasing power of its residents and businesses so that it can provide them with an alternative electricity supply. Approximately 170 Massachusetts communities, to date, have chosen to develop community choice electricity programs to benefit their residents and small business owners.

Residents will not notice any change in their electricity service. The only discernible difference will be that Dynegy Energy Services of Irving, Texas, will be printed under “Supplier Services” on Eversource’s monthly bills. Residents and small business owners will continue to receive one bill from Eversource and to send payments to Eversource for processing. There will be no interruption in billing, power, or customer service.

No action is required by ratepayers to participate in this cost-saving program. The Program will be operated on an opt-out basis, meaning that all Windsor residential and business customers currently on Eversource’s Basic Service will be automatically enrolled into the Program unless they choose to opt-out. Residents who wish to opt-down to the optional basic product or opt-up to the optional renewable product can make that selection accordingly.

There are no enrollment, early termination, or cancellation fees attached to the Windsor electricity program. Residents who choose to opt-out can also opt-in at a later date if they so choose at no cost. However, anyone switching from a contract with a third-party supplier may be subject to penalties or early termination fees charged by that supplier. Ratepayers should verify terms before switching.

Eversource Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the program against Eversource’s Basic Service. However, such savings and future savings cannot be guaranteed.

Residents or business owners with a supplier block on their account must contact their Eversource to request that the block be removed if they want to participate in Windsor’s electricity program.

Eversource has several programs to help income-eligible families and customers needing special assistance to meet their energy needs. To learn more visit eversource.com/content/residential/account-billing/payment-assistance/discount-rate.

An information session to answer any questions regarding Windsor’s Community Choice Power Supply Program will be held by the Town and representatives of Colonial Power Group as follows:

- August 7, 2024 at 7 pm at Town Hall, 1890 Route 9, Windsor, MA

Residents may also visit colonialpowergroup.com/windsor/ or call (866) 485-5858 ext. 1 to learn more about Windsor's Community Choice Power Supply Program, to opt-in or opt-out, or to change your product selection.

ABOUT COLONIAL POWER GROUP: Based in Marlborough, Mass., Colonial Power Group is the leading aggregation-consulting firm in Massachusetts. Colonial Power has been working with local governments since 2002 in the design, implementation and management of municipal aggregation programs.
